

HEALTHCARE ACTIVITY

Healthcare activity integrating teaching and research mainly takes place at the Neurology Clinic with some healthcare undertaken at the National Health Hospitals of S.Orsola-Malpighi and Bellaria in Bologna. Healthcare includes the diagnosis and treatment of central and peripheral nervous system diseases in adults and children focusing on epilepsies, headache and facial pain, sleep disorders, extrapyramidal diseases, cerebral ageing, autism, mental retardation, learning and language disorders, neuromuscular diseases, neurogenetic diseases and rare neurological conditions.

Neurology Clinic:

The healthcare activity undertaken at the Neurology Clinic is run by a university consortium chaired by the Chancellor of Bologna University who in turn appoints a legal representative. The current representative is Alessandro Bianco; the administrative director is Luisa La Motta and the chief health officer is Prof. Agostino Baruzzi.
